### A definition of stress

*Physiological and psychological reactions that occur when faced with external or internal demands, challenges and pressures. The reactions can give rise to functional disorders, symptoms and diseases.*

Peter Währborg

PÅBLÄGSHÄLSOVÄRDEN

LUND  
UNIVERSITET

---

---

---

---

---

---

## Demands

<b>External circumstances</b>	<b>Internal circumstances</b>
Physical working conditions	Self-image
Psychosocial working conditions	Ambitions
Private life conditions	Values
Societal conditions	Health

---

---

---

## Stress reactions are natural

- Helps the body to mobilise energy and perform
- Prepares us, makes us determined, focused and strong
- Necessary for our survival
- Not dangerous... as long as we can wind down and recuperate!

## Causes of stress

The diagram illustrates the Karasek model of stress. It features three main components arranged in a triangle:

- DEMANDS** (top right): Quantitative, Qualitative, Emotional, External/Internal.
- CONTROL** (bottom left): Influence, Discretion, Responsibility, Competence.
- SUPPORT** (bottom right): Emotional, Practical, Informative, Assessment.

(Karasek, Theorist)

 LUNDS  
UNIVERSITET

## How do we proceed?

Risk Assessment		Plan of Action			
Risk	Comments/ Assessment	Steps/ Action	Responsible	Ready Date	Follow-up Date

FÖRETAGSHÄLSOKÄRLEN

## What can we/I do to decrease and prevent stress?

FÖRETAGSHÄLSOKÄRLEN

## Stress management

- Identify the causes of stress
- Change the situation
- Change yourself
- Acceptance
- Decrease or combat stress

FÖRETAGSHÄLSOKÄRLEN

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

## Stress prevention

- Recovery
  - Sleep
  - Breaks
  - Relaxation
  - Social network
- Diet
- Physical activity/tension release

FÖRETAGSMÄLARVÄRDEN

---

---

---

---

---

---

---

---

## Physical activity/tension release

- Improved blood pressure
- Lower heart rate
- Lower levels of stress hormones
- Improved cognition – “smarter”
- Better executive capacity
- Increased self-esteem
- Decreased muscle tension
- Weight management

FÖRETAGSMÄLARVÄRDEN

---

---

---

---

---

---

---

---

## Physical activity

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>• 30 min/day</li> <li>• Pleasurable</li> <li>• Daytime/daylight</li> <li>• Fit into everyday life</li> </ul> | <ul style="list-style-type: none"> <li>• Every third day</li> <li>• Recovery</li> <li>• Fitness exercises and strength training</li> </ul> |
|---|--|

FÖRETAGSMÄLARVÄRDEN

---

---

---

---

---

---

---

---

## Tension release

- Techniques – deep breathing, visualising, meditation, tai chi, qigong
- 15 min/day
- 5 days/week
- Patience
